

32 Channel GMR-TDT Adapter PCB Rev2 – For 32 and 96 Channel Systems

The GMR32 connection is made thru a single omnetics connector, part number A71253-001. It is a surface mount, 34 pin, 4 guide posts, standup vertical, protruding female, .025” pitch, dual row connector.

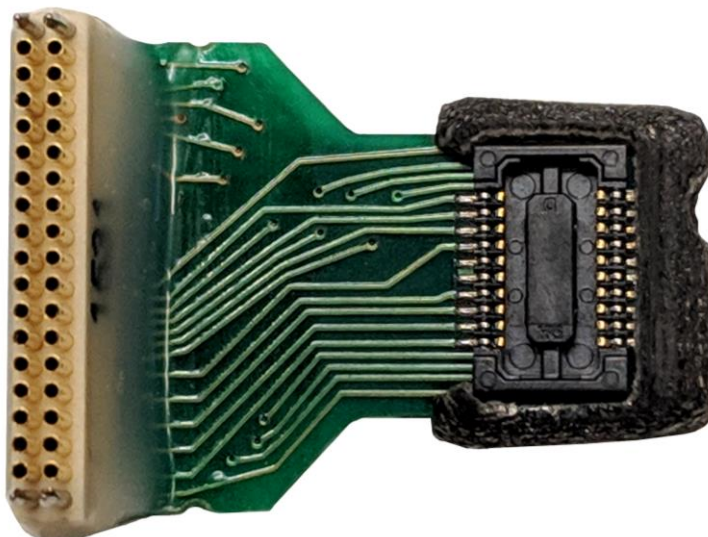

The TDT connection is made via two identical Hirose connectors, part number DF30FC-20DS-0.4V. Each are surface mounted on different sides of the pcb. These connectors have a .4mm pitch.
